

# Help for the management of poll workers

---

You are in the second stage of the electoral process.

In this stage you can :

- Register the personal data of each effective poll worker

The task bar contains the following options:

- Go to menu
- Report an incident
- Install voting machines
- Manage the election statistics

During this process, you will be able to insert the personal data of each poll worker, from the president to the witness. To insert these data you can write them directly by means of the keyboard of the president machine or use the eID card of each poll worker. You will need to at least insert the personal data of the chairman and of the assistant-secretary.

When you are ready, click on 'Manage poll workers'.
