

# Help for the installation of voting machines

---

The president machine has been started up correctly and you are in the first stage of the electoral process.

In this stage you can:

- Install the voting machines.

The taskbar contains the following options:

- Go to menu
- Register a technical incident
- Manage the election statistics

This stage of installing voting machines will allow the latter to be able to initiate a voting process for each voter presenting himself by inserting an access card activated by the president.

When you are ready to install the voting machines click on 'install voting machines' to start the installation wizard.
