

Help for the execution of a vote diagnosis

You are in the third stage of the electoral process.

In this stage you should :

- Perform a vote diagnosis

The taskbar contains the following options :

- Go to menu.
- Report a technical incident.
- Install voting machines.
- Manage poll workers of the polling station.
- Manage the polling station president's comments.
- Manage the election statistics.

Performing a vote diagnosis will allow to check the reliability of the voting process. You will indeed have to activate a card to insert it into a voting machine, cast a complete vote and finally scan the printed barcode by means of the barcode reader connected to the president machine.

When you are ready to test the voting process, click on 'Vote diagnosis'.
