

Help for the opening of the election

You are in the fourth stage of the electoral process.

In this stage you can:

- open the election.

The taskbar contains the following options :

- Go to menu
- Register a technical incident
- Install voting machines
- Manage poll workers
- Manage the president's comments
- Manage the election statistics

When opening the election the electoral process status is changed from 'Not open' to 'Open' as a result of which the election can proceed.

The president machine stays in the same status during the entire electoral process which allows the voters to cast their votes by means of a smartcard that gives them access to the voting machine.

As the date and time of the opening of the election have been reached, you can now click on 'Open election'.
