Help for opening an election

This process allows to change the election status in the president machine from 'Not open' to 'Open', which allows for the election to proceed.

The president machine stays in this status during the electoral process to allow the voters to cast their vote by means of a smartcard activated by the president machine.

To start this process you need:

- a smartcard reader connected to the president machine.
- your eID card to automatically insert your data

To open the election you need to:

1. Insert the important comments regarding the start of the electoral process through the 'Comments' screen.
2. Insert your eID card into the reader or insert your personal data through the 'Official election information' screen.
3. Click on 'Confirm'.
4. Wait for the screen confirming the effective opening of the electoral process.
5. When you are ready, click on the red cross in the upper right part of the screen.
