Help for assisted/proxy vote registration

To perform this process you need to:

- have a smartcard reader correctly connected to the president machine.
- your ID information or eID card to automatically fill out your personal data.
- the ID information or eID card of the voter and of the voter's assistant to automatically fill out their personal data.
- the ID information or eID card of the objector and of the designated person to make the replacement vote, to automatically fill out their personal data.

To register the information about the activation, you need to:

1. Click on the 'Insert data' button
2. Fil out the data required for the voter:
a. Insert the eID card into the reader
b. If an eID card is inserted, wait until the data are downloaded and displayed on the screen
c. Complete or change the required data. Incomplete data will not be accepted
3. The assistant voter will be asked to:
a. Insert an eID card into the reader
b. If an eID card is inserted, wait until the data are downloaded and displayed on the screen
c. Complete or change the required data. Incomplete data will not be accepted
4. You will be asked to:
a. Insert the eID card into the reader
b. If an eID card is inserted, wait until the data are downloaded and displayed on the screen
c. Complete or change the required data. Incomplete data will not be accepted
5. After your data have been completed, two questions will be asked.
6. Click on 'Yes' to the first question if it is a proxy vote, and the voter is not present. Otherwise click on 'No'.

7. Click on 'Yes' to the second question if there is a dispute. Otherwise click on 'No'
8. Fill the required information of the objector or the new assistant designated by you or any member of the polling station.
